

I urge you to keep stations like K-LOVE on the air and not allow LPFM stations priority over FM translators. K-LOVE provides crucial services to communities-encouragement, counseling and suicide prevention services. K-LOVE programming is positive and encouraging to people in a world that sorely needs this type of positive influence. It has personally enriched my life by providing me peace and encouragement in my everyday existence of hectic chaos. I know that they have literally saved peoples lives from the many testimonials from people who have talked with K-LOVE personnel and said they were ready to "end it all" until they heard a particular song or talked to one of the K-LOVE radio hosts. I don't know of many radio stations that have performed such a crucial service. Please - keep K-LOVE bringing a message of hope to those in need in communities throughout the nation.

Sincerely,

Russell West - Littleton, CO
